Edro Gonzales
Full Stack Software Developer

Transitioning from a background in business and sales, I have a passion for providing and ensuring experiences. I am excited to apply my skills as a developer to further these passions of mine.

Experience

2018 - 2020
Virgin Mobile Sales Associate

● Achieved one of the highest post-paid/hardware upgrade activations in-store and in the region

● Generated over 30% cross-sell 'hardware upgrade cross-sells' in a sales period by being consistent

● Maintaining knowledge on industry trends and product upgrades to provide customized recommendations to customers based on their user needs

● Communicating technical concepts regarding phone specs/software to further educate non-technical stakeholders in their purchases

Projects

Amay Sweets https://amay-sweets.com | Co-Developer

Dec 27, 2020 – Jan 2, 2021

Co-developed and deployed an app that showcases a local baking business' product. Utilized the React libraries: styled-components, react-reveal.

Happy-Bonsai https://happy-bonsai.netlify.app/login | Full Stack Application

Jan 19, 2020 – current

Full Stack application that tracks a reader's growth in the form of a 3D – rendered bonsai utilizing React libraries: react-three-fiber, three, and firebase authentication/Realtime database.
